

1. Develop a cross-platform application using React Native for calculating Body Mass Index (BMI).

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

2. Design and develop a cross-platform To-Do Management application using React Native for managing daily tasks.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

3. Develop a React Native application for adding, updating, deleting, and viewing day-to-day tasks.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

4. Design an Android application using Apache Cordova for a User Login Screen with username and password fields.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

5. Develop a Cordova application containing Submit and Reset buttons along with proper layout managers.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

6. Design a Cordova-based Android application with a header image, labels, and login form controls

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

7. Develop an Android application using Apache Cordova to find and display the current geographical location of the user.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

8. Design and develop a Cordova application using Geolocation API to display latitude and longitude coordinates.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

9. Write a Java-based Android application for a Simple Library Management System using SQLite Database.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

10. Develop an Android application using Java to store and retrieve library book details from a database.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

11. Create an Android application using Java for displaying available books, issued books, and reserved books.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

12. Develop an Android application using Java and Database connectivity for book lending management.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

13. Write a Java Android application for maintaining student and library records using SQLite Database.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

14. Develop an Android application using Java to perform CRUD (Create, Read, Update, Delete) operations on library data.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100

15. Design and implement a React Native BMI Calculator application with height and weight input validation.

Aim/Principle/Apparatus required/Procedure	Tabulation/Circuit/Program/Drawing	Calculation & Results	Viva-Voce	Record	Total
20	30	30	10	10	100
